- 60Ah battery included
- Do-it yourself compact solar system that doesn't need professional installation
- Simple plug and play system – setup and use
- Worry free backup system, have the confidence of never running out of power
- Modular design allows for easy solar and battery expansion
- Items included: 1800 Watt Inverter, 60Ah Battery, 40 Watt Solar Panel, 8Amp Charge Controller, 5 Amp AC Charger and 50' Extension Cable

Optional: Add additional 60Ah Auxiliary Battery boxes for longer runtimes

Auxiliary Battery

How it works

Specifications

Inverter		AC Charger	
Maximum Power:	1800 Watts	Maximum Current:	5 Amps
Output Voltage:	120 Volts AC	Output Voltage:	
AC receptades:	4	Charge:	14.8 Vdc
Output wavform:	Modified Sine Wave	Float:	13.5 Vdc
Peak Efficiency:	90%	Recharge:	12.6 Vdc
		Charging Type:	Four-Stage (bulk, absorption, float with timer)
Solar Panel		Battery	
Type:	Monocrystalline	Type:	Deep Cycle, Sealed Lead Acid
Maximum Power:	40 Watts	Battery Capacity:	12V, 60Ah
Maximum Current:	2.8 Amps		
Open Circuit Voltage:	21.5 DC		
Regulatory approvals: CSA C22.2 no 107.3 – UL 1778
