

1.5W Solar Battery Maintainer

User Manual

⚠ WARNING: Read and understand all instructions, warnings, and cautions before using this product. Failure to follow the instructions, warnings, and cautions may result in serious personal injury and/or property damage.

Item # 42015

SAVE THESE INSTRUCTIONS

Important Safety Information

Thank you for choosing a Nature Power Product.

Save the receipt and these instructions. It is important that you read the entire manual to become familiar with this product before you begin using it.

This product is designed for certain applications only. The distributor cannot be responsible for issues arising from modification. We strongly recommend this product not be modified and/or used for any application other than that for which it was designed. If you have any question relative to a particular application, Do not use the product until you have first contacted the distributor to determine if it can or should be performed on the product.

For technical question please call 1800-588-0590

⚠️WARNING

- Read and understand all instructions. Failure to follow all instructions may result in serious injury or property damage.
- The warnings, cautions, and instructions in this manual cannot cover all possible conditions or situations that could occur. Exercise common sense and caution when using this tool. Always be aware of the environment and ensure that the tool is used in a safe and responsible manner.
- Do not allow persons to operate or assemble the product until they have read this manual and have developed a thorough understanding of how it works.
- Do not modify this product in any way. Unauthorized modification may impair the function and/or safety and could affect the life of the product. There are specific applications for which the product was designed.
- Use the right tool for the job. DO NOT attempt to force small equipment to do the work of larger industrial equipment. There are certain applications for which this equipment was designed. It will be a safer experience and do the job better at the capacity for which it was intended. DO NOT use this equipment for a purpose for which it was not intended.
- Industrial or commercial applications must follow OSHA requirements.

Prop. 65 Warning for California Residents

WARNING: This product may contain chemicals known to the State of California to cause cancer, birth defects, or other reproductive harm.

Intended Use

This solar panel is designed to prevent rechargeable 12 Volt batteries from discharging and damaging themselves when left in storage for long periods of time. Some common uses of 12 Volt batteries are in cars and trucks, ATVs, boats, water pumps, and deer feeders.

Technical Specifications

Property	Specification
Maximum Wattage	Up to 1.5 Watts
Current at Pmax	Up to 83 mA
Solar Panel Type	Amorphous
Measurements	13 7/8 x 3 15/16 x 1/2"
Weight	0.97 lbs

Assembly

None required except connections for operation. See Operating Instructions.

Before Each Use

- Check for damaged parts before each use. Replace damaged or worn parts immediately. Never use the solar panel with a damaged part.
- Check that the panel, battery clamps and other parts are clean to ensure proper function. If necessary, wipe the components with a damp cloth – DO NOT use soap or solvents when cleaning and DO NOT pour chemicals on the panel.

Operating Instructions

1. Connect the included battery clamps or the DC plug to the wires from the panel by the J-plug connectors.

J plug connectors

2. If using the battery clamps: Attach the positive battery clamp (red, +) to the positive battery terminal (+) and the negative battery clamp (black, -) to the negative battery terminal (-).
If using the DC plug: insert the plug into the vehicle's 12-volt power socket.

3. Expose the solar panel to sunlight. The solar panel can be mounted on a windshield using the included suction cups.

The solar panel will produce a current when exposed to sunlight. Direct sunlight will produce best results. Diffused or low light will result in lower or no output.

Note: If LED light on the panel is off this only shows that the LED light may have gone out and is not necessarily indicative of the solar panel not working. Please test the panel with a multimeter to ensure proper functionality.

After Each Use

- Clean the panel, battery clamps and other parts of dirt and debris to prepare it for the next use. Wipe the components with a damp cloth but **DO NOT** use soap or solvents.
- Dry the components so that no moisture remains to possibly corrode the electrical connections.
- **DO NOT** pour chemicals on the panel when cleaning.

Store the solar panel when it is not in use. Store in a dry, secure place out of the reach of children. Inspect the panel and clips for good working condition prior to storage and again before use.

Maintenance

The solar panel requires no maintenance except occasional cleaning and replacement of damaged or worn parts. Use only identical replacement components. Components that may be suitable for one device may create a risk of injury when used with another device.

Parts Lists

Item No.	Description	Qty
1	Solar Panel	1
2	Battery Clamps	1
3	DC Plug	1
4	Suction Cups	4

Replacement Parts

- For replacement parts and technical questions, please call Customer Service at **1-800-588-0590**.
- Not all product components are available for replacement. The illustrations provided are a convenient reference to the location and position of parts in the assembly sequence.
- When ordering parts, the following will be required: model number, serial number/lot date code, and description.
- The distributor reserves the rights to make design changes and or improvements to product lines and manuals without notice.

Limited Warranty

Nature Power warrants our products to the original purchaser that this product is free from defects in materials and workmanship for the period of one year from date of purchase. In addition, this item is warranted to generate up to 80% of rated power for a period of five years from date of purchase. In the case of product defect, contact Nature Power customer service to receive troubleshooting. If defective part or unit should be returned, a return Authorization Number must be issued by Nature Power and the defective part or unit should be returned to the authorized location at the purchasers' expense. A dated proof of purchase is required to receive warranty service. Once received at authorized location and defect proves to be the result of defective material and workmanship, the defective part or unit will be replaced at warrantors' option and returned to the original purchaser at warrantors' expense. No refunds will be granted by the warrantor, in the event of buyer's remorse please contact your point of purchase within and in adherence to their return policy. Refunds are granted at the retailers' discretions.

Dated Proof of Purchase is required.

Limitations on the Warranty

This limited warranty does not cover: (a) normal wear and tear; (b) damage through abuse, neglect, misuse, or as a result of any accident or in any other manner; (c) damage from misapplication, overloading, or improper installation; (d) improper maintenance and repair; (e) product alteration in any manner, and (f) broken glass.
